## ANEW PERFECTA: REDEFINING TIMELESS BEAUTY

Unveil the future of skincare with **Anew Perfecta**, a revolutionary dermal biorevitalizer designed to enhance your natural beauty. Engineered for high-mobility areas such as the eyes, lips, and body, our advanced formulation ensures long-lasting hydration, elasticity, and rejuvenation.

## YOUR SKIN, PERFECTLY ENHANCED

Say goodbye to dullness and uneven tones. With **Anew Perfecta**, your skin achieves:

### RADIANCE

A luminous, youthful glow that captivates.

### HYDRATION

Deep, enduring moisture to revive dry or damaged skin.

### ELASTICITY

Natural suppleness for a youthful appearance.

# The science behind beauty transformation

## SCIENTIFIC BENEFITS

### REGENERATION

Stimulates fibroblasts  
for youthful skin.

### DEEP HYDRATION

Creates a glowing  
extracellular matrix.

### VOLUME RESTORATION

Reduces wrinkles and  
restores facial volume.

**At the heart of Anew Perfecta lies groundbreaking technology:**

#### M.M.A. TECHNOLOGY

(Macro Molecular Alignment)

Uses the combination of heat and a phase of mechanical extrusion directly during the production phase which is capable of aligning the cross-linked hyaluronic acid molecules. This favors the extrusion of the gel from the syringe without compromising the dynamic viscosity of the product.

#### M.F.HA TECHNOLOGY

(Micro-fragmentation HA)

Reduces the size of the cross-linked gel particles to a few millimeters, promoting better hydration, a higher degree of swelling and a favorable ratio between elastic and viscous modulus in a wide stress range.

# Tailored Solutions for Every Need

Whether you're combating the first signs of aging or repairing visible damage, Anew Perfecta adapts to your skin's needs.

Available in  
versatile formats:

## 3 ML INNOVATION:
